

PINCHOT-BROWN IN NECK AND NECK RACE IN STATE

Indications Are That Official
Count May Be Necessary
To Determine Winner

BOTH CLAIM VICTORY

Davis Leads Grundy in State
For the Senatorship
Nomination

With the returns of 6,623 of Pennsylvania's 8,700 precincts tabulated at 1.30 p. m., Secretary of Labor Davis maintained his majority over Senator Joseph R. Grundy in the race for the Republican Senatorial nomination.

The vote stood: Davis, 538,633; The vote stood: Davis, 607,026; Grundy, 369,421; Bohlen, 180,388. Francis Shunk Brown's lead over Gifford Pinchot for the Republican nomination for Governor dwindled steadily this afternoon as returns from Pinchot strongholds were added to the total votes counted.

Brown's lead has been reduced to 53,638 on the face of unofficial returns from 6,439 of Pennsylvania's 8,700 precincts. The latest tabulation showed Brown with 492,744 votes and Pinchot with 439,106.

The closeness of the governorship contest was indicated this morning when both Brown and Pinchot headquarters claimed victory by the same figure—50,000 votes.

Pinchot's managers claimed that the missing districts were all from Pinchot territory where his ratio was four and five to one over Brown. This was disputed by Brown's managers.

Among the districts missing were 220 in Allegheny (Pittsburgh) County where Pinchot was leading Brown by 10,000 votes, and 41 precincts in Dauphin (Harrisburg) County, where the former Governor also was leading his opponent.

PHILADELPHIA, May 21.—Pennsylvania's super-hectic primary showed the following results today:

Secretary of Labor James J. Davis defeated Senator Joseph R. Grundy for the Republican Senatorial nomination by a margin estimated between 150,000 and 175,000 votes.

Gifford Pinchot, the veteran progressive, apparently has won the Republican gubernatorial nomination from Francis Shunk Brown, the Vero organization candidate, by a narrow margin. The contest is close and it may take the official count to determine the winner.

The "wringing wet" ticket of Thomas W. Phillips for Governor and Prof. Francis H. Bohlen for Senator polled a heavy vote throughout the State, but ran third.

Senator Grundy, with characteristic grumance, retired early this morning refusing to concede the victory of his Cabinet opponent, but the verdict was written in such figures that a concession was hardly necessary.

Grundy ran far behind Davis in the two great organization strongholds of the State, Philadelphia and Pittsburgh, and although he made up some ground in the other 65 counties it was impossible to overcome the tidal wave of votes rolled up by the city machine.

The Pinchot-Brown race was a sea-saw affair throughout the night, but this morning the tall forester was leading Brown by some 7,000 in Allegheny County (Pittsburgh) and the territory yet to be heard from, in the middle counties, was considered favorable to his cause.

The strength of Pinchot and the weakness of Grundy were the outstanding features of the results to the politicians.

Slaughtered in Philadelphia, the stronghold of the Vero machine, against which he campaigned so assiduously, Pinchot ran a strong and surprising race elsewhere in the State. This morning his managers were claiming that on the final returns he will be shown to have carried every one of Pennsylvania's 67 counties. He received only 53,000 votes in Philadelphia in a total vote of approximately 400,000.

Grundy fared only slightly better than Pinchot, his informal ticket-mate, in Philadelphia, and failed to gain the large support in Allegheny (Pittsburgh) that enabled Pinchot to make a race of it. With unofficial and incomplete returns from most of the counties, it is expected that Grundy will have carried a score of counties in the final showdown, but some of them were counties that do not have as many votes as some of Philadelphia's populous divisions.

ENTHUSIASM RUNS HIGH AT FIRST ANNUAL SCHOLASTIC AND FIELD MEET STAGED BY PUPILS OF BENSALEM TOWNSHIP SCHOOLS, SATURDAY

Attractive Placques Presented to Classes Gaining the Highest
Number of Points in the Girls' and Boys' Groups; Medals
and Ribbons Constitute the Individual Awards

CORNWELLS HEIGHTS, May 21.—Bensalem public schools held their first annual scholastic and field meet Saturday afternoon on the grounds of the high school here.

There was much interest and enthusiasm on the part of the students and the spectators who attended.

The field was in poor condition for the meet due to the fact that most of it is new ground and despite the fact that much work had been done on it the track was heavy and slow.

In the morning there were scholastic contests and the track and field events were held during the afternoon. Quite a large group of spectators milled about the grounds during the day and it is estimated that about 500 attended.

The events were divided into three classes. Class A consisting of high school students, grades 9, 10, 11 and 12.

Class B, grades six, seven and eight. Class C, grades one to five inclusive. Each of the schools in the district held elimination contests during the week and thus picked their best to send for the finals.

A committee of young women from Temple University conducted the girls' athletic events and the activities committees of the School Board conducted the boys' contests. This committee consisted of Richard Fechtenburg and L. L. Williams. Mr. Williams had charge of the records and Mr. Fechtenburg had charge of the events.

Assisting these men were: F. W. Grupp, William Irvin, Harry Brown, Rowland McCauley, John Mortimer, John Whyte, William Amich, J. Stanley Vansant, Giles McCauley, Percy Underwood, Walter Wharton, Guye W. Miller, Charles H. Ludascher, Edward Graham, William L. Williams, Anson M. Hamm and Kenneth Jenks.

The young women from Temple who were in charge of the girls' events were: Misses Elsyne N. Jennings, Jean M. Campbell, Marie K. Durian, Alice Davis and Florence Gerhart. Miss Ruth S. Hanson is coach of the girls. Harold West, Rider College, Trenton, N. J., acted as judge in the spelling and penmanship contests while Assistant County Superintendent, S. M. Smyser, had charge of the declamation and reading contests.

Mrs. Mary H. Kates, Wood School, Langhorne, was in charge of art and Miss Mary L. Harry, Philadelphia Public School, looked after the composition contest.

The standing of the students in the numerous contests is here shown with placings being given in order:

Plans Adventure That Will Make Others Fade

WASHINGTON, D. C., May 21.—Captain Hubert Wilkins, famous English explorer of the top and bottom of the world, is planning an adventure that will make the fantastic tales of Jules Verne seem commonplace.

Captain Wilkins wants to sail from Spitzbergen, via the North Pole, to the Behring Straits under ice in a submarine! For his astonishing expedition, the captain has applied to the Navy Department for a charter on the battered old United States submarine, the O-12.

Because of his English citizenship, Captain Wilkins made his application to Assistant Secretary Jahncke through his American assistants, Sloan Dannenhower and Simon Lake.

In his letter asking for the charter, Wilkins said the submarine would have to be virtually rebuilt. Among the new equipment necessary is machinery to bore through ice fifty feet thick, television and radio apparatus and a balloon for air observation.

Wilkins pointed out that no unbroken ice floes nor icebergs of great size had been observed in the Arctic regions, and a fourth of the entire distance could be sailed in open water.

The submarine would be equipped with a "telescopic conning tower that could drill holes in ice ten feet thick." Another attachment could bore through 50 feet of ice.

The prow of the submarine would be provided with an observation chamber, with powerful lights that would penetrate the water for some distance ahead. In addition, Wilkins would add a compression chamber, so his men could move in and out of the submerged vessel in diving suits.

For many years Captain Wilkins has been recognized as one of the world's most experienced and daring polar explorers. A few weeks ago he returned from his fourth visit to the Antarctic.

EMILIE WINS SECOND TWILIGHT LEAGUE GAME

Defeats Croydon Boys' Club
By the Score of
5 to 1

CROYDON PLAYS WELL

EMILIE, May 21.—Emilie Y. M. A. won its second Bristol Twilight League triumph here last evening by defeating the Croydon's Boys' Club by the score of 5-1.

It was the opening league contest for Croydon and they made a fine impression on the crowd that assembled to see the game. Threatening weather held the crowd to a small number. Emilie has not been defeated this year.

"Ted" Praul was serving them for the home towners and held the opposing team to but three hits. Two of them were clean singles. The other was a slow roller which the runner beat out. Outside of the second frame Praul never was in danger, the outfielders coming to his rescue a number of times.

Seven flies were caught by the outer-garden, and each was a difficult job because of the heavy wind holding back the ball. J. Morrell batted four flies, one with two men on base and robbing the batter of a possible triple.

"Henny" Morrell collected two out of three to lead the batters of the evening, but this was only a minor part in this boy's work of the evening. He stole four bases to get the jump on all the base-pilferers of the league. He also scored two runs and handled Praul's slants without difficulty.

Base-stealing was plentiful during the game. In all eleven stolen bases were recorded, seven for Emilie and four for the visitors.

Holland pitched in fine style, holding the winners to but four hits, two being doubles. However, he was a bit wild and passed four men besides hitting one. E. Hamm was the star fielder for the losers.

Game by inning:

First—Brock was passed; C. Hamm hit a fly which H. Morrell got under; Brock stole second, and continued to third when Adams tossed Moran; Gleason walked and stole second; Lake struck out.

Carp fanned; Adams lined to center field; H. Morrell reached first on Lake's error of his roller; Bruce waited for four bad ones; Satterthwaite struck out.

Second—E. Hamm was struck with a pitched ball; Crossley got a free ride to first base; Holland hit to R. Arrison, forcing E. Hamm; Trindle lined to Satterthwaite; Brock singled over second base, scoring Crossley; C. Hamm hit to Still and was thrown out at first.

Watson whammed a double to center; Still flew to second. Watson made third on a passed ball, and scored on a wild pitch. Praul hit an easy roller to Lake who made the ball go through his legs; J. Morrell and R. Arrison struck out.

Third—Moran hit to Praul and went out; Gleason looked at a third strike; Tranotti batted for Lake and suffered the same fate as Gleason.

W. Arrison walked and was caught (Continued on Page 6)

MANY SEEDLINGS PLANTED IN COUNTY

Thirty-Four Persons in Bucks
County Took Advantage
of State's Offer

PLANTED THREE KINDS

More than 130,000 forest tree seedlings and transplants were made available to planters in Bucks County during the spring planting season, according to reports from the Norristown office of the Department of Forests and Waters. Thirty-four persons in all parts of the county planted trees which were largely three-year-old seedlings of the following varieties: White pine, red pine, pitch pine, Norway spruce, Scotch pine, Japanese larch, white oak and red oak. The trees were set out on abandoned farm land and poorly stocked woodlands. It was stated that seedling stock is sold by the Department at \$2 the thousand for reforestation or watershed protection. Not less than one thousand is made available to one person and none is sold for windbreaks or ornamentation.

Mr. J. Hibbs Buckman, Langhorne, planted the largest number in the county. Thirty-seven thousand were planted in his woodlands and in fields he no longer desires to cultivate. Major E. L. Dougherty, Quakertown, planted 20,500 on his farms near Applebacksville, in Haycock Township. Fifteen thousand additional seedlings were planted in Neshaminy Farms near Newtown, bringing their total to 40,000. Mr. J. Franzen, Souderton, planted 16,000 and 10,000 were set out by Frederick Traenkle, Weyompe. George H. Ely, New Hope, continued his planting for the seventh consecutive year and Sellersville Borough planted 1,000 on the municipal watershed. The Forestry Club of the National Farm School set out 1,000 trees to be used in the future as a demonstration forest.

During this spring more than 1,400,000 forest trees were sold by the Department to private planters in the Valley Forge Forest District which is comprised of eight counties in the southeastern part of the State. This is 300,000 in excess of the number that was sent out in 1929. Berks County leads all others in the district and is among the leaders of the State. In addition to the 560,000 distributed by the Department in that County, the City of Reading purchased more than 400,000 for planting on the municipal watershed. Montgomery County is second in the number of trees planted with 165,000 and Delaware is third with 133,000. Chester, Lancaster and Lehigh Counties are about equal, each receiving from the Department of Forests and Waters more than a hundred thousand trees. The number that was planted in Bucks is about the same as last year, however the other counties show substantial gains.

Increasing numbers of forest trees are annually being planted according to District Forester Brouse. It is recognized as an excellent opportunity to bring back to production land that is not being used or that is unfitted for agriculture. Persons are taking advantage of the Department's liberal offer to supply trees for reforestation below the actual cost of production. It is pointed that there are thousands of acres of waste land in Pennsylvania which will continue to be idle and unproductive unless planted with trees and there are few farms which do not have idle fields that could be planted. Order blanks and lists of stock available, and an illustrated booklet giving planting methods, costs and complete tree descriptions may be obtained from the Department at Harrisburg or the Norristown office.

Don't forget the card party which is scheduled tonight to be held in No. 3 Fire House on Swain street, for the benefit of the Third Ward Girls. EXHAUST BALLOT SUPPLY IN ANDALUSIA FIGHT

Each Faction Wins Place On
County Committee in Bitter Contest

MANY COULD NOT VOTE

ANDALUSIA, May 21.—There was a hotly contested election for the office of county committeeman and committee woman in the Andalusia district of Bensalem Township yesterday. A shortage of ballots kept a number of folks from voting and caused quite a lot of dissatisfaction in the district. It is reported that there were 450 ballots received from the county commissioners at Doylestown and the number of enrolled voters is given as 564. At four o'clock yesterday afternoon it was found that the ballots were going to run short so request was made of Doylestown for permission to go into a neighboring district and secure a supply. This could not be done, the election board was advised, so there was but one thing to do when the supply of ballots was exhausted and that was to close the polls.

At four o'clock over 300 persons had voted in the district. The contest was for the office of county committeeman and committee woman. There was one woman and one man to be named and there were six candidates in the field. It is estimated that between 25 and 30 voters were denied the opportunity to cast a vote due to the lack of ballots. The voting was held in the Red Lion Inn which has been closed since numerous raids for the illegal selling of liquor.

Steps have been taken to padlock the hotel but the order has not as yet been issued. The inn is closed, however, and unoccupied at the present time. The court granted permission to hold the election in the property. The unofficial returns give the following:

Charles Dunk, 206; Margaret Parr, 162; Edward Katznar, 104; May Schnupp, 182; Marie Lathrop, 63; Charles C. Markley, 155.

WEDNESDAY, MAY 21, 1930

CAN THIS SUCCEED?

An over-painted humanity is watching with fevered eagerness the progress of that anachronistic defiance of sacred customs by the Dartmouth College students (male), who have foregone long trousers and plus fours for Boy Scout "kilts."

These sartorial revolutionists in defying the conventions and exposing their knees to the civic and academic eye are, doomed to defeat, ignominious and complete.

There is the innate conservatism of the undergraduate body. Even where conventions are most unconventional, woe betide the individual who defies college customs. Strange and unreasonable customs have originated on the campus, but the age of innovation in the academic world is long since dead. New customs are not in good taste in the realm of Alma Mater.

As for the post-graduate and non-college man adopting Dartmouth "shorts," there is more likelihood of the Prince of Wales marrying. Had plus fours found wide favor as business attire there might be a chance for bare knees for men, but that sensible movement proved a dismal failure, and the few dauntless trail-blazers have gone back to their baggy long trousers for business occasions.

But conceding for the sake of argument that masculinity should perform the miracle of emancipating itself from the slavery of sartorial convention and custom, would the upholders of the public moral permit this shameless exposure of manly knee caps? Never! Remember the Igorots. Savage born, they adopted the whole American army uniform but the pants and threatened desertion when some New England missionaries discovered their pantless state and swooped down upon the war department.

FASTIDIOUS

Within this first quarter of the twentieth century the immaculate man and woman, once conspicuous because of their neat personal appearance, have become commonplace, and the slovenly individual stands out in the crowd. It may be said without danger of much exaggeration, that present-day standards of tidiness during working hours are higher than the Saturday night and Sunday standards of two decades back. Even the modern factory worker gathers no more grease and grime than his agricultural forbear.

One phase of this trend toward universal cleanliness and personal pride is noted in a current advertisement. The ad-writer observes:

"Physical wholesomeness has become gospel to the American people. Toilet preparations which enhance charm are on every household list as only groceries used to be. The makers of fine soaps, dentifrices, bath salts, powders, perfumes, creams, lotions and a score of other cosmetics picture their winsome appeal."

Further proof that this is the fastidious era is seen in the increased volume of business of laundries, greater number of dry cleaning and clothes pressing establishments, thriving shoe shine stalls and stands, more general adoption of the daily bath, more frequent patronage of the barber shop and beauty parlor and more extensive wardrobes of men, women and children.

CHILDREN ALMOST HATE CROSS, NERVOUS MOTHER

"My children almost hated me, I was so cross. Thanks to Vinol, my nervousness is all gone and we are happy again."—Mrs. T. Johnstone.

For 30 years doctors have prescribed Vinol because it contains important mineral elements of iron, calcium and cod liver peptone. The very FIRST bottle brings sound sleep and a BIG appetite. Nervous, worn-out people are surprised how QUICK Vinol gives new life and pep! Tastes delicious. Harry Headley, druggist.—(Adv.)

POLLYANNA

Today's profundity: It must be distressing for a husband to realize that she who before marriage was his ideal is now his ordeal.

Still spinach might be put over by incorporating it in a 25-cent sandwich.

Gladys says she's gonna call her stocking "Nurmi" because it's always running, darn it.

Alice: "But why have you dated this letter the 10th when today is only the 4th?"

Irene: "Because I'm going to give it to you to mail, my dear."

Carelessness does more harm than a want of knowledge.

Many a loud and gaudy pair of spats cover an honest pair of cotton socks.

Hoping without planning is as futile as waiting for a harvest without planting.

Short skirts have had no effect, so far as anybody knows, except to demonstrate that woman is a biped.

Americanism: Sending home a post card showing your hotel room marked with an "X."

"I hope you behaved yourself last night, my darling daughter."

"Yes, mother, I obeyed the golden rule."

"How?"

"I did unto others as I wanted them to do unto me."

A really honest man doesn't rent any house-tops to shout the fact from.

The final proof of patience consists

in helping Willie with his arithmetic without getting mad at your own ignorance.

"Shirts that laugh at the laundry," are advertised by a certain firm. One of ours, bought elsewhere, has such a keen sense of humor that it arrived home the other day with its sides split.

What in the world do you suppose Geraldine Farrar was trying to do the other day when she tripped up on her skirt and fell to the floor-walk on her knees?

Florida boasts of a gorilla that thinks. We wonder what it thinks of Florida.

Grateful Patient: "Doctor, how can I ever pay you for your kindness to me?"

Doctor: "Doesn't matter, old man—check, money order, or cash."

"I frequently have demands for my autograph," said a Jefferson avenue man, "usually at the bottom of a check."

There's many a fellow who can size up anybody but himself.

There is a good deal of instruction for golf and bridge players in the newspapers these days. What we would like to know is how to shoot ducks when there are none in the country and how to catch bass when they won't bite.

The wife of an aviator is the only woman who is always glad to see her husband down and out.

Some say the honey bee and the silkworm are the only domesticated insects in the world. What about the cockroach?

The man who isn't a good life insurance risk needs to be a darn good money maker if he cares for peace and quiet around home.

"Did your husband die a natural

death?"

"Yes, he got shot."

HOW THE POPPY SALE ORIGINATED IN U. S.

First among veteran organizations to conduct a nationwide poppy sale and the first organization to adopt the policy of distributing poppies made exclusively by disabled ex-service men, the Veterans of Foreign Wars of the U. S., make no concessions to claims to the contrary.

Although poppies made their appearance in a few scattered communities, they were introduced on a nationwide scale for the first time by the Veterans of Foreign Wars of the U. S. in 1922.

When the public from coast to coast demonstrated its preference for the poppy as the appropriate memorial flower of the nation, attempts on the part of other organizations that year to abandon the poppy by popularizing other symbolic blossoms were immediately forgotten. The success of the V. F. W. distribution of poppies had convinced them that the little flower of Flanders field origin could not be replaced.

In 1923 the Veterans of Foreign Wars of the U. S., in co-operation with the U. S. Veterans' Bureau, established the first "Buddy Poppy Factory," manned completely by disabled ex-service men. This "factory" was located at Pittsburgh, Pa., and in the

poppy sale of 1924 every poppy distributed by a V. F. W. post or auxiliary throughout the United States, was made at Pittsburgh.

The following year this plan, which was given the hearty endorsement of General Frank T. Hines, director of the U. S. Veterans' Bureau, was extended to Veterans' Bureau hospitals throughout the country. Since then V. F. W. poppies have been assembled in this manner.

The name "Buddy Poppy" was originated by the disabled men themselves. In order to protect the men from commercial poppies used by other organizations, the V. F. W. registered the word "Buddy" as its trade-mark. Every poppy handled by the V. F. W. since 1923 has been labeled with a tag bearing the words, "V. F. W. Buddy Poppy," as a guarantee to the public.

at large for the Buddy Poppy and the ideas it represents, other organizations followed the lead of the Veterans of Foreign Wars of the U. S. in sponsoring poppy programs. The slogan of the V. F. GASOLINE HAS A DIFFERENT JOB...
MOTORS have CHANGED

That's the reason for

Mobilgas

The Newest Gasoline, Modernized for this
new Generation of Automobiles

By the makers of Mobiloil

PEOPLE don't stick to old ideas when something new and better appears! To make cars ride better you welcomed balloon tires, To make cars stop quicker you o.k'd four-wheel brakes. Motors are different, too. They're faster, quicker, more exacting in fuel requirements.

So the makers of Mobiloil made Mobilgas modernized by Vacuum's Process of distillation, for this new generation of cars. Vacuum's Process of distillation gets the greatest possible gasoline value from the crude oil... gives you the joyfully lively fuel you need today.

If you like things that are new and better, if you aren't afraid of new ideas, join the army of progressive people who are switching to Mobilgas. It doesn't cost a penny more.

Tuning in on the Talkies by Walhill

THE "little theatre" movement has spread to the screen. Vitaphone Varieties list scores of "little shows."

"Well," said Al Tolson as he paid for his wife's new handbag, "there's one snake that didn't frighten you."

Film title asks: "Can a Woman Love Twice?" but does not explain how come the limitation.

Barbara Kent

As an experiment in talkie science "Captain Blood" will be transposed to the screen by First National.

Rin Tin Tin is one actor who has thus far escaped the divorce court.

Actions speak louder than words, except in the talkies.

Told in Two Lines "Our Blushing Brides" "Slightly Scarlet"

Fence-Rail Talkies Farmer Silo says: "Diversified crops are all right. We raise crickets, frogs and crows so we don't need any radios."

Tinkering With Film Titles "Forever After" is only a short while in the movies.

"Mind the Paint Girl" is a warning that goes unheeded.

"Mother's Cry" and "The Father's Curse" as usual in movies.

The honest reason

THERE IS ONLY one real reason for smoking and that's pleasure. A pretty good reason after all. The cigarette you select in the long run will be the one that can contribute most to your enjoyment.

Camels are made with that idea in mind—the idea that genuine smoke pleasure is what you want in a cigarette.

When you try them you will find a refreshing difference—a mild, mellow richness of choice tobaccos—a blended harmony of fragrance, silky smooth—that makes smoking a delight.

The fact that more millions have chosen Camel than any other cigarette is a tribute to an honest product, marketed for an honest purpose.

"KONJOLA GAVE ME HEALTH," SAYS GRATEFUL LADY

Tells How Famous Medicine Brought Relief From Nervous Indigestion

MISS BETTY CRAEMER

"Konjola gave me health after all other medicines had failed," said Miss Betty Craemer, 111 Burr Street, Mt. Oliver Station, Pittsburgh. "I had a nervous disorder of my stomach that caused gas and all of its evils. After meals, bits of undigested food rose to my mouth leaving a bad taste."

"I read and heard so much about Konjola that I decided to give it a trial. From the very first a radical change took place. The gas bloating disappeared and the fermentation of food ceased. My disposition is better and all signs of nervousness have vanished. No words can express my praise for Konjola."

All that is asked for Konjola is that it be given a chance to prove its merits. Six to eight bottles are recommended for the ills of the stomach, liver, kidneys and bowels and of rheumatism, neuritis and nervousness.

Konjola is sold in Bristol at Hoffman's Cut Rate Store, and by all the best druggists in all towns throughout this entire section.—(Adv.)
